

SUMMARY

Computer Science student experienced in building **AI-powered applications and backend systems** using **Python, FastAPI, Flask, REST APIs, Java, and Spring Boot**. Hands-on experience with **LLM applications, machine learning, computer vision, SQL, and PostgreSQL**.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript

AI & ML: LLM APIs, Prompt Engineering, RAG, Embeddings, LangChain, LangGraph, AI Agents, Machine Learning

Backend: FastAPI, Flask, REST APIs, Spring Boot, Spring Security, JWT Authentication

Databases: PostgreSQL, MySQL, SQL Server, ChromaDB, Pinecone

Tools & CV: Git, GitHub Actions, Docker, Postman, Hugging Face, OpenCV, dlib

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Delhi Integrated Multi-Modal Transit System Ltd, Delhi

June 2025 – Aug 2025

Full-Stack Java Developer Intern

- Developed **OnlineQuizWebApp** using **Java, JSP, Servlets, JDBC, and SQL Server** following **MVC architecture**.
- Implemented **dynamic quiz workflows and real-time evaluation**, supporting concurrent users and responsive application behavior.
- Designed and optimized **SQL queries** for efficient data retrieval and improved application performance.
- Debugged and resolved **application-level issues**, improving system stability and reliability.

PROJECTS

Solvix   | Python, FastAPI, LLM APIs, PostgreSQL

- Developed an **AI-powered DSA platform** using **Python and FastAPI** to analyze **LeetCode and Codeforces** submissions and identify weak topics.
- Implemented **topic scoring, AI-generated study plans, and spaced-repetition reminders** using accuracy, difficulty, and problem staleness.
- Integrated **AI mock interviews and weekly progress reports** for personalized, data-driven interview preparation.

Ambulance Router   | Python, FastAPI, React, PostgreSQL, DSA

- Built a **full-stack emergency dispatch system** using **FastAPI, React, PostgreSQL, and OpenStreetMap** for ambulance routing and hospital selection.
- Implemented **Dijkstra and A* algorithms from scratch** with **traffic-aware routing, hospital ranking, and priority-based triage**.
- Engineered **REST APIs, geospatial routing, simulated live tracking, and automated testing with 89 tests**.

DoCure.ai  | Python, LLM APIs, Groq, Whisper, LLaMA 3 Vision

- Developed an **AI healthcare assistant** integrating **LLMs, speech recognition, and computer vision models** for multimodal health assistance.
- Integrated **Groq LLMs, OpenAI Whisper, and LLaMA 3 Vision** for text, voice, and image-based interactions.
- Built **AI-driven workflows** for nutrition guidance, voice consultation, doctor discovery, and symptom analysis.

ACHIEVEMENTS

- Secured **2nd Prize** in the **1st Pay-Check Challenge** with a Rs. 3,000 reward.
- Ranked 4th** at **Nexify'25 Hackathon** for building an AI-powered health assistant.
- Solved **350+ coding problems** across **LeetCode, GeeksforGeeks, and HackerRank**.
- Led and organized **SyntaxSprint'25**, a Pan-India hackathon with **100+ participants**, and conducted **Python Series 1.0 & 2.0**.

EDUCATION

GD Goenka University

B.Tech - Computer Science and Engineering – **CGPA: 9.51**

2023 – Present

Gurugram, Haryana

FM Higher Secondary School

2021

Class XII (CHSE)

Balasore, Odisha

SR Bidyapitha

2019

Class X (BSE)

Bhogra, Balasore
